Sheet music for the song "When the Workers of the World Combine". The music is in G major (one sharp) and 4/4 time. The lyrics are:

The fifth month of the year on the first of May  
Known a-round the world as In-ter-na-tion-al Wor-kers Day  
You'll still see peo-ple march-ing in eve-ry cor-ner of the Earth  
St John to San-ti-a-go Ke-ra-la to Perth  
All keep-ing a-live the fan-ta-sy what could hap-pen down the line  
When the wor-kers of the world com-bine

The fifth month of the year, on the **first of May**  
Known around the world as **International Workers Day**  
You'll still see people marching in every corner of the Earth  
St John to Santiago, Kerala to Perth  
All keeping alive the fantasy, what could happen down the line  
***When the workers of the world combine***

You can see us gathering early in the morn  
Some are celebrating the shackles we have shorn  
While so many billions are just waiting for  
The moment that we might stop losing the class war  
When someday we can all say yeah, we're doing fine  
***When the workers of the world combine***

When that time arrives, maybe it looks like **May Day**  
Like a festival that comes home and doesn't go away  
Every race and gender, every walk and station  
With the **working class united**, every land and nation  
Then just watch what happens, when we follow the same sign  
***When the workers of the world combine***
